

Refugee Crisis Update- November 2017

Serving Refugee & Immigrant Neighbors Together

On Oct. 24th thousands of refugees were further impacted by decisions made:

- The White House earlier lowered the number of refugees who can come to the USA to a record low of 45,000, but now refugees from 11 countries are barred for at least another 90-day review period.
- The 11 nationalities affected includes Iraqis who worked to support the U.S. Government and U.S. efforts in Iraq, further delaying their access to safety.
- Further restrictions have been placed on refugee reunification (family members still in camps not being allowed to join those already in the USA). This impacts many from Africa, Asia and the M.E. with whom we are working.
- Statistics prove that the refugee resettlement program is the safest U.S. immigration program. Since 1980, of the more than 3 million refugees have been resettled in the U.S., not one has committed a terrorist act here. Yet, we now have a “virtual wall” excluding most refugees, including persecuted Christians.
- Though we don’t know how many new refugee families Arrive Ministries will be resettling over the next 12 months, we have expanded our outreach to those refugees who are already here and have experienced a burgeoning number of volunteers in our Somali Adult Literacy Training (SALT), Refugee Life Ministries (RLM) and New Neighbor outreaches with dozens of new teams and trainings taking place.

Worldwide (Source- UNHCR):

- 22.7 million refugees worldwide
 - 5.1 million Syrian have fled as refugees
 - More than 62% of the 1.8 million refugees who have fled Southern Sudan are children
 - More than 3,000 have drowned in the Mediterranean seeking safety in 2017
 - 17 years – average length of time from when a refugee first flees their country until they are resettled
 - 45 million Internally Displaced People (IDP), including 6.6 million Syrians and over 3.0 million Yemenis

United States (Source- US State Department):

- 3,000,000 refugees from all countries have arrived in the U.S. over the past 30+ years.
- From fiscal years 2002 to 2016, the U.S. admitted 399,677 Christian refugees and 279,339 Muslim refugees. 46% of all refugees who have entered the U.S. during this time have been Christian while 32% have been Muslim. (Pew Research Center)
- More than 250,000 women and children have been resettled in the US since 2011 (70% of total).
- 18-24 months is the average security screening time for a refugee before arriving in the U.S.
- The Administration lowered the number of refugees to be allowed into the United States annually from 110,000 in PY2016-2017 to 45,000 in PY2017-2018 (or one refugee for every 7,000 U.S. residents).

What this means for refugees:

- The administration has seriously cut the number of refugees who can be resettled in the USA. This means that not only can fewer refugees be welcomed, but many family reunification cases will be put on hold infinitely.
- Refugees in the United States are protected by U.S. law. Refugee status does not expire, but we encourage refugees to apply for green cards (after 1 year) and to become U.S. Citizens (after 5 years).

How we can respond:

- **Pray** for our country’s leaders, refugees around the world, and the church.
- **Love** your friends, neighbors, and coworkers who are refugees. They are feeling disheartened right now and unsure of the future of their loved ones still overseas.
- **Advocate** for helping refugees in the camps and for a more compassion response to refugee resettlement from our leaders in Washington.
- **Volunteer and Support Arrive Ministries.** We still have a few refugees being resettled and have many families already here who desire friendship partners, New Neighbors, ESL/tutoring help, employment mentors, and other practical support. Above all “love your neighbor as yourself.”
